

Wind Energy

Project Manager for Wind Power projects, Aalborg (Denmark)

ProCon Wind Energy activities are growing globally, and we are therefore looking for a Project Manager with a proven track record from a similar position within Wind Power projects.

About us

ProCon Wind Energy offers and provides custom-built solutions and technical equipment to the global wind industry. We are well experienced in designing and engineering electrical systems and our offshore wind solutions cover projects within transformer and service platforms, transition pieces and wind turbine towers.

We focus on providing excellent service, and we take great pride in complying with customer and international requirements. Our goal is to be a trust-worthy partner and to execute high-end projects within agreed deadline, quality and competitive pricing. Our highly experienced project managers, engineers and technicians are dedicated to performing design, construction, installation, commissioning, upgrading, maintenance, service, and repair of new and existing systems.

You can learn more about us by visiting our website www.procon.as

The job

As Project Manager in ProCon Wind Energy, you will be provided with a unique opportunity to participate in all relevant disciplines in large-scale Wind Power projects. You will establish and maintain a close cooperation with costumers, key suppliers, site managers and back office. You will be reporting to the Head of Construction.

Roles of responsibility

- Be a part of the project execution process from A – Z
- Purchasing of components and other materials for projects together with our Procurement Department
- Guiding and managing blue collars regarding project execution in close collaboration with Site Manager
- Participation in customer and supplier meetings
- Manage the project budget in cooperation with our Finance Department
- Keep track on project time plan
- Ensure a safe and quality focused environment together with our QHSE Department

Your qualifications

- Technical background
- Preferably a degree in Business and/or Project Management, or similar
- Minimum 5 years' experience from a similar position
- Strong negotiation and communication skills within execution of large-scale projects
- Commercial and organizational skills
- Solid contractual understanding
- Ability to coordinate several tasks at the same time
- Fluent language skills in Danish and English to negotiate on a professional level

What we can offer

ProCon Wind Energy offers an attractive job environment where there is a good work & life balance, which is accompanied with an open and honest atmosphere. The way from decision making to execution is short, and you will become a part of a value-based company, which strives to have a healthy DNA.

For the right candidate there are exciting opportunities ahead. We offer an attractive salary package, in line with market expectations, based on your qualifications and experience.

Work location

You will be working from our office in Aalborg but both national and international travel activity must be expected (around 40 days a year).

Job start

As soon as possible but we are willing to wait for the right candidate.

Contact

For more information about the position, please contact our Head of Construction Mr. Thomas Dybro on phone +45 2523 1799 or send an email to tdl@procon.as

Deadline & Apply

Ongoing deadline but we consider the incoming applications regularly until the right candidate is found.
